

5 Benefits of a Brand Session

WWW.CRISTYCROSS.COM

WHY SHOULD I INVEST IN A BRANDING SESSION?

1.) CONNECTS YOU WITH YOUR CUSTOMERS

Who is the person behind the business? Your customers want to know and they want to relate with your smiling face. This creates authenticity and helps them know what it looks and feels like to work with you.

2.) PROMOTES YOUR BUSINESS ON A PERSONAL LEVEL

Now that you've got their attention, relate to them. Share who you are as a person. You can do this through a photo of you walking your dog, drinking a cup of coffee or sharing a stack of books you are currently reading. A branding session captures candid moments such as building your vision board, meeting with clients or your creative process.

3.) BUILD TRUST

Sharing just the smallest bit about you as a person, and not just your business, brings you and your customers closer. They can now relate to you more. This will then turn into a relationship built on comfort and trust.

4.) PROFESSIONALISM

Attracting customers through high quality photographs sets you apart from the rest. It shows that you value high quality and they want that amazing service.

5.) INSPIRE

Now that your clients see your professional photographs, they will be inspired to work with you. They want to add value to their lives and business and seeing you in a professional style will make them feel confident in hiring you.

THANK YOU...

Okay. Are you ready to schedule your branding session? Take it from me, they are so much fun. Really! One of my friends even calls it a "celebrate me" session, which I think is perfect.

It's a two-fold. You are celebrating you and you are celebrating your business. You are rising above the norm and making yourself known. I'm proud of you friend. Get excited, because you are doing amazing things.
